

SUN MARKETING GROUP

	<p>CUI designs, manufactures and markets electro-mechanical components for the OEM manufacturer. Buzzers, Connectors, DC-DC Converters, Encoders, Linear, Microphones, Sensors, Speakers, Switching Power Supplies, Thermal Management, Custom Products CUI's power division, V-Infinity, offers a product line that consists of external and embedded ac-dc power supplies, dc-dc converters, and LED drivers that range from 0.25 to 2400 watts.</p>
	<p>Chip LED's, Thru Hole LED's, Light pipes, Panel Mount indicators and LED arrays. LED lens solutions and LED lighting sub-assemblies.</p>
	<p>E-Switch, Inc. is a leading electromechanical switch supplier that offers one of the broadest switch lines available today.</p>
	<p>Greenliant offers the following product lines, built to withstand the most extreme conditions, for long-life applications: NANDrive™ (eMMC, PATA/IDE, SATA) ArmourDrive™ (mSATA) , G-card NVMe PCIe flash storage cards, NAND Controllers Specialty Flash Memory includes the CSF (Concurrent SuperFlash), Many-Time Programmable and SSF (Small-Sector Flash) families.</p>
	<p>Leader in circuit protection products and solutions. The Littelfuse portfolio is backed by industry-leading technical support, design and manufacturing expertise. Littelfuse products are vital components in virtually every product that uses electrical energy. Littelfuse offers Teccor®, Wickmann® and Pudenz® brand circuit protection products as well as Reed, Hall-effect, Inductive and Magneto Resistive technologies, Reed Switches, and Reed Relays.</p>
	<p>MPS offers high performance analog semiconductor including DC-DC Power Conversion, AC-DC Power Conversion, LED Lighting & Illumination, Power Modules, Battery Management, Display Backlighting Power, E- Fuses & Load Switches, Motor Drive & Sensors, Smart Home, Class-D Audio and Precision Analog.</p>
	<p>Inductors, Transformers, Chokes, Filtered Magnetic & non-filtered I/O Connectors (USB, RJ11/45, SFP/XFP, 1394, HDMI) and antennas. Pulse serves the wireless and wireline communications, power management, military/aerospace (1394, Fibre Channel, 1553 & SONET) and automotive industries.</p>
	<p>InRcore offers a variety of magnetic solutions for military, commercial aerospace, manned and unmanned space, high-reliability industrial, medical and power grid infrastructure applications.</p>
	<p>Sharp Microelectronics of the Americas (SMA) drives innovative LCDs and ultra-low power mLCDs to market. With long product life, Sharp is perfect for extended product lifecycles.</p>
	<p>SiTime is a fabless integrated circuit Company developing silicon timing, clock, and RF chips, which incorporate Micro Electro Mechanical Systems timing reference devices inside standard silicon electronic chips, eliminating the need for quartz crystals.</p>
	<p>Toshiba Semiconductor provides LDO Regulators, Wireless Charging IC's, Operational Amplifiers, Microprocessors including Cortex M4, M4F, MOSFETS up to 900V, Optical products such as photocouplers, photo relays, fiber-couplers, Bluetooth BLE, RF power amps, RF Switch ICs, linear image sensors.</p>
